Car Care Tips

HOW TO KEEP YOUR CAR INTERIOR CLEAN AND SAFE.

- Vacuum clean the car interiors regularly.
- Use Auto Cleaner to clean up spills and to effectively remove spots and eliminate odors.
- Use a soft microfiber cloth to gently clean away dust so as to avoid scratch in the plastic surfaces.
- For Leather seats you need to use leather cleaner and conditioning specially designed for car seats.
- If your car seats get wet, keep the windows open, to avoid the formation of fungus.
- Use vinyl cleaner to wipe down the vinyl areas, such as dashboard, door handles, consoles and storage bins.
- Refresh your car with air freshener to keep the interior smelling fresh and clean.
- Avoid eating food inside the car or else clean the areas immediately to avoid bad odors and pests into the car.

HOW TO PROTECT AND MAINTAIN YOUR CAR EXTERIOR.

- Frequent washing is the best thing to maintain your vehicle finish and preserve its showroom shape. line scratches. Use a specially designed car washing mitt or sponge to clean your cars body.
- Never use household cleaners like hand soap, dish washing soap on your car's paint. Use only Auto Shampoo or Polishes to wash and polish your car.
- Don't leave dead bugs, bird droppings or tree saps on your car; remove as soon as possible to avoid staining the paint.
- If you fail to rinse your vehicle off after a period of rainy weather the acidic chemicals in the rainwater will be left on the surface after the droplets have evaporated, leaving a mark that can permanently ruin the paint.
- Use soft (normal) water to wash your car, Hard water (which contains minerals) will leave a film on paint surface.
- Avoid parking the car in the direct sunlight for an extended period of time. It will cause the paint to blister. Use covered parking or shade wherever possible.
- Six month duration polish your vehicle with a professional detailer to extend the life of your car.
